

Harrison Ekeblad PhotoPoet
Australia

Harry has been described as a 21st century young man with a 14th century soul. He has been writing songs and poems since he was 12 and now at 24 yrs old his poetry and song lyrics have intensity beyond his years.

His passion for photography has given him an outlet for his poems and every image he takes has its own meaning. Creating a montage of these images Harry adds sentiment using his poetry.

Harry is the 5th generation artist of his family and as he is colourblind, his metaphor through life has been, 'seeing the world through shades of grey'! Growing up in an artistic family enabled him to value the colours he could distinguish.

Asia Contemporary Art Show will be the 1st exhibition of his work.
