Artist Profile

Born in 1986, Wong Chun Hei Stephen graduated from Fine Art Department (CUHK) in 2008. After that, Wong set up his own studio in Fo Tan (Someone in this studio) and continue his art development to date. Wong's paintings focus on virtual and yet, natural landscape scenery, an approach evolved from his early work which drew inspiration from the digital scenes of video games, clashing virtual world with our real one to create a stark contrast and simultaneously harmonizing visual impact unique to Wong's artistic style. In recent years, Wong intensify his exploration of Hong Kong's natural treasure and grasp every precious moment to paint outdoor. By blending his imagination with scrutiny to realistic details, the paintings reveal a special aesthetic between modern living of mankind and the forever transforming nature.
