

MOK Wai-chee, Gigi (Hong Kong)

Gigi is a perfectionist. She has a keen desire in the pursuit of detail. To perfect her creations, she pays great attention to the material and quality of the paper, the ink and water loading, as well as the quality of the brushes.

Over 6 years of creative practice, painting has become a part of her life. She is in deep love for colour pencil painting. She has been re-doing every piece of her works many times until she is fully satisfied with the piece. She can point out the insufficiency of each piece of her creations although all of us are not able to identify their differences. Her paintings are so precise and in great detail.
