

LAURA LUQUE

Visual Artist

Buenos Aires. Argentina

Bio

Laura was born in Buenos Aires City in 1977, and since her early childhood she has been interested in the arts.

She gave her first steps through Ballet. Her father, a young violinist, taught her to love music.

2005 marked a turning point in her life. It was during her twenties while she was studying Fashion Design that discovered her passion for painting

After becoming a Fashion Designer, she created her own fashion brand, but that didn't keep her away from her passion. She continued in touch with visual arts, attending classes and workshops.

Finally, in early 2016 she decided to become a Visual Artist and with his teacher in the Nordelta Art Studio, Marcelo Gaggino, she continued learning about illustration, collage and street arts technics. She found her own style in the POP ART.

"Any object is valid to paint and produce Art", it was that phrase that made her intervene many objects linked to her past as a fashion designer, such as sneakers, mannequins, clothes, hats, etc.

Following her own heart, she decided to choose her materials very carefully. Her creations with books, fabrics, papers and photos, combined with her self-made stencils, aerosol sprays, acrylics and varnishes, result in artwork that lays between dreams and reality.
