

3. Tito Tryamei

Tito Tryamei was born in 1988 in Surabaya, Indonesia. He graduated from Yogyakarta and has had many exhibitions and won awards as a developing artist.

Social phobia is the background and inspiration of Tito's work. His struggle is to portray the nuances of introspection and to find a way of fighting back the fear itself. He imagines the fear experience through the character of a young girl whose phobia transforms interiors, distorts realities to explain the inexplicable to the viewer.
