A Story of Bow

Bow was the dog that I had kept in my studio. It was a bull terrier. The little curious demon had a violent temper and always made a trouble, though I could find him dearness and cuteness. The bigger he grew up, the more he made mess that I had to clean up. Once I have remade my sculpture which he ruined, but I loved him. Sometimes his foolish but unusual behavior gave me an idea the way that I had never imagined before. One day, he had gone and I couldn't find him.

As time went by, I missed him even more and I made a sculpture based on Bow. Since then, he has become the essential material with my artwork. A series of Bow sculptures contains the good old days, memories, wishes, dreams and fantasies. Also, the characterized Bow could make you visualize the story of life.
