

HEO WOOK

Heo Wook was born in Seoul in 1973 and graduated from Ecole Nationale Supérieure des Beaux-Arts de Paris (DNSAP), Paris with degrees in Drawings and Painting, Architecture and Multimedia. His work examines the meaning of the relationship between objects, spaces, and people by infiltrating and mingling artistic forms to engage with the audience. "Support Supported: Accepting the Art of Giving Back" is part of his continuing interest and examination of these themes. His unique visual language is also on display in the "Layer on layer" series, examining the meaning of space and flatness for objects. Heo Wook is actively involved in a cross-spectrum of artistic work, creating corporate and public art, through construction, installation, and painting. He is the first Korean to collaborate with Absolute Vodka.
