

About Us

Kinosho Kikaku aims to bring about new inspirations to the local art scene with original ideas of unlimited forms and unusual stratagem. With promoting Japanese contemporary art as one of our major goals, in recent years, our exhibition platform has expanded to other regions in Asia, mainly by participating in various kinds of international art fairs. The result so far is remarkable.

As we gradually overcame the corruption of Japan's Bubble Economy in the late 1980s, now is the time of the coming of a brand-new era. This time by chance, we are able to open a new gallery space in Tokyo. This space will be the main exhibit platform for artists in Japan while our connections overseas continue to expand in the days to come.

With ever evolving, ever growing, ever challenging as the main keywords, our goal is to continuously look for the unseen and discover the unknown with passion and determination.
